## Blessing in Disguise

The impoverished living conditions of Muslims in many Indian states do not provide a conducive environment for them to join main stream schooling. But, this acts as a blessing in disguise for them; these young Muslims join madrassas in their locality and start their spiritual and school education. Studying in a spiritual atmosphere with a systematic approach to studies enhances their memory and focus

## VIA leads the way

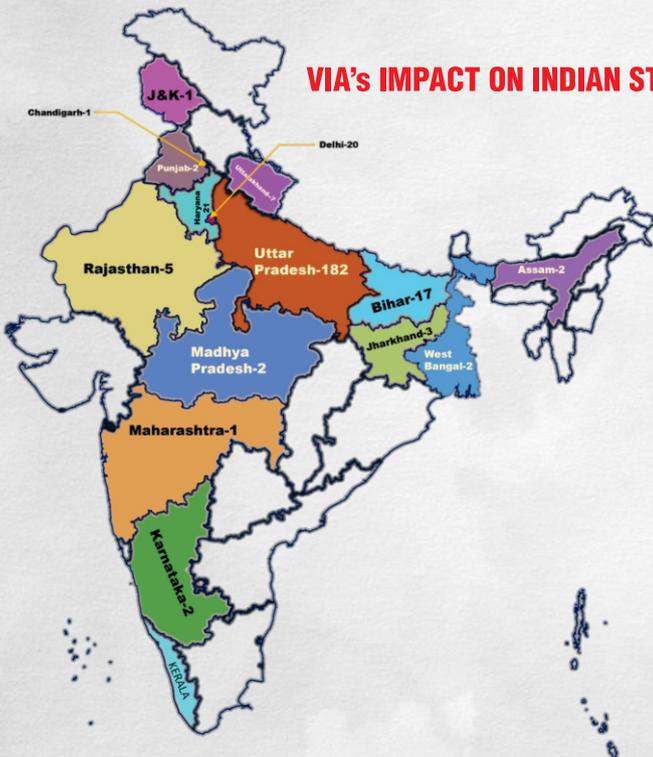

True spiritual teachings can bring peace in society and geniality among communities. VIA is a glittering example from the Muslim community perspective in pursuit of a nostrum for social improve ment and political reform. Other communities and marginalized sections can emulate VIA's model with necessary fine-tuning in their search for ways to overcome their sordid living conditions.

## VIA Model

The learnings of Quran stands paramount in the curriculum design. Huffaz follow a customised regime of perfecting their Hifz. Their is individualised attention to improve the skills around Mathematics, English, Science and Social Sciences. Along with studies, emphasis is laid on a balanced life with ample co-curricular and physical activities.

## VIA's IMPACT ON INDIAN STATES

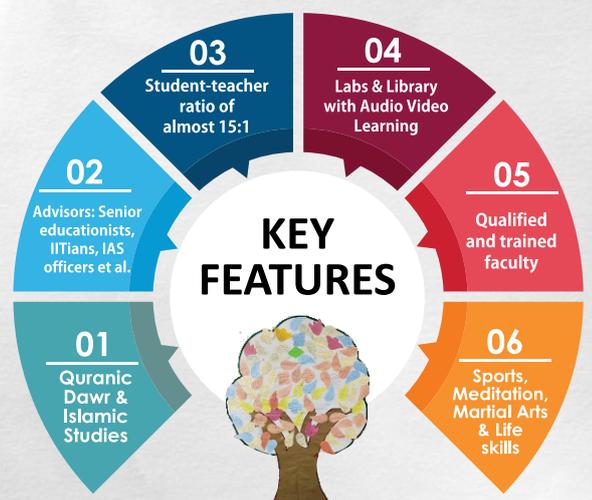

## VIA's IMPACT ON U.P.'s DISTRICTS

## Nation benefits

Spirituality is the essence of India's social life. It enhances the quality of public life by adding more accountability to it. Tapping the intellectual caliber of Huffaz students, VIA has pioneered and institutionalized a pedagogy to lead them to higher education. Institutions in many states of northern India have started emulating this model of education. The more the idea is appreciated, the more it attracts young minds in the underprivileged Muslim community.

## 'DAWR' - THE RETENTION OF HOLY QURAN BY HUFFAZ AT VIA

### A fascinating journey

VIA is just a few steps away from the giant leap to prove its mettle. Started in 2017, inducting 76 Huffaz into its roles, Instilling, confidence, hope & learning skills, VIA dedicatedly guided the students to excellent performance in the board exams. The students joined without their preliminary education, cleared hurdles one after another with vigor and focus on the journey to their destination to become graduates. We just inspired them with dreams of a bright future. The trajectory of their triumph indicates more colorful days ahead. Have a glimpse of this fabulous journey...

### VIA lives it's mission:

A large section of Muslims still rely on traditional religious seminaries (Madarsas) for education of their children. A renewed focus to enhance the learning and skills has led to some improvements in this system. VIA is an excellence oriented initiative focusing on Huffaz (Those who have learnt Quran by heart). By training and upgrading the sharp minds of the assets of Muslim community, VIA endeavours to contribute to nation building by mainstreaming this ignored resource of the country.

I would like to thank VIA who helped me in providing a stupendous platform for my younger brother where he could pursue his Alma matter along with the retention of his Hifz-E-Quran. The educational programme running by VIA from Foundation to 12<sup>th</sup> class (simultaneously with Hifz, Quran, Daur, Hadith, Deeniyat, Urdu etc.) is really marvelous that helps the Huffaz students to spread their wings in such an environment which has a plenty of excellent staff, quality education, extra-curricular activities, sports, cultural programs etc. in a fully developed and equipped infrastructure. The conveyance of conceptual approach backed by laboratory practical demonstrations widen up the critical thought process of students. The frequently organized educational counselling seminars are indeed "Cherry on Cake" from student's future perspective.

I wish all the very best to VIA to touch the greater heights beyond sky.
